Dear Tim,

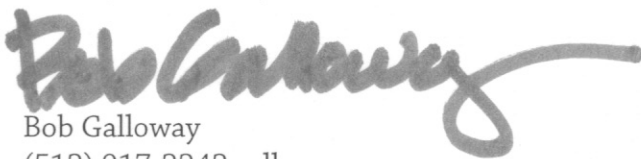

Carol and I want you to know how much we appreciate your beyond-expectations effort on the addition to our home. We are really enjoying the new project room and especially the master bathroom remodel.

Thank you for the thorough pricing breakdown in your initial quote for the project as well as your patience and fair pricing as design changes and unexpected conditions came along. Your regular communications throughout the process made living in a construction site quite painless.

It was also comforting to know that Jose and your other sub-contractors were all high integrity folks and we had no concerns about access to our home and property. As an architect, I consider your craftsmanship to be excellent and the finish product to be top quality.

Please feel free to use me as a reference for any future projects or business opportunities that you are pursuing. You have my full recommendation for either new or renovated residential construction. Carol and I wish you the very best and we will recommend you and TLP Construction to anyone that is considering a project.

Many thanks,
